

BARNABAS MIKEL

Frontend-Focused Full-Stack Engineer

mrbarbx@gmail.com | GitHub | Portfolio | LinkedIn | Nigeria / Remote

PROFESSIONAL SUMMARY

Frontend-focused full-stack engineer with 3+ years of experience building responsive web applications and product interfaces using React, Vue, Next.js, TypeScript, JavaScript, and Node.js. Strong in frontend architecture, reusable component systems, API integration, and polished user experiences, with practical experience in backend development, AI-enabled workflows, automation, debugging, and cloud deployment.

TECHNICAL SKILLS

Frontend: React, Vue 3, Next.js, TypeScript, JavaScript, Vite, Tailwind CSS, responsive UI, accessibility, component architecture

Backend & Data: Node.js, Express, REST APIs, serverless functions, Prisma, PostgreSQL, Supabase

AI & Automation: AI API integration, OpenRouter, multimodal interfaces, prompt engineering, workflow design, WhatsApp integrations

Engineering Tools: Git, GitHub, Vercel, npm, Postman, Figma, Cloudflare Turnstile

PROFESSIONAL EXPERIENCE

Frontend Engineer | Imisi Health | Apr 2026 - Present

- Build and maintain accessible, responsive interfaces for healthcare workflows spanning authentication, appointments, insurance, and records.
- Develop reusable frontend components and consistent application patterns across core product areas.
- Integrate frontend experiences with backend APIs and AI/model services, including complete loading, error, and interaction states.
- Collaborate with backend engineers and product stakeholders on implementation, debugging, code review, and release-quality improvements.

Lead Frontend Developer & UI/UX Designer | Synlo, Nigeria | Nov 2025 - Present

- Lead frontend implementation and interface design for a SocialFi product combining event discovery, matchmaking, and AI-assisted interactions.
- Translate product concepts into responsive user flows, reusable components, and consistent interaction patterns.

Full-Stack Developer | VIN Startup Project, Kenya | Nov 2024 - 2025

- Built a multimodal AI chat interface supporting text, image, and file inputs.
- Developed Node.js and Express REST APIs and deployed serverless workflows on Vercel.

Backend Developer | SIMM, France | Mar 2024 - Jun 2025

- Designed REST APIs for AI-powered applications with authentication, rate limiting, and data validation.
- Organized lightweight, maintainable server logic to support reliable integrations and responsive intelligent frontends.

Frontend Developer | Learni | May 2023 - 2025

- Developed responsive views for a decentralized Web3 learning platform and supported product iteration across core learning experiences.

Freelance UI/UX Designer | Zogo, Nigeria | Jun 2024 - Aug 2024

- Converted product requirements into clear user flows, interface screens, and implementation-ready visual specifications.

SELECTED PROJECTS

Subly | React 19, Vite, Tailwind CSS, Supabase, Cloudflare Turnstile

Built responsive marketplace, product, cart, checkout, authentication, and dashboard experiences for a digital access platform; integrated validated lead capture and bot protection.

GitHub

BANX Automation Studio | Next.js, TypeScript, Tailwind CSS, Three.js

Created a conversion-focused automation studio experience with responsive product storytelling, interactive presentation, and service packaging.

GitHub

Omni-Channel AI Chatbot | Node.js, Express, Prisma, PostgreSQL, WhatsApp Cloud API

Developed a shared conversation backend for website and WhatsApp with lead capture, qualification, handoff flows, request validation, rate limiting, and webhook signature verification.

GitHub

EDUCATION

Bachelor of Engineering (B.Eng.), Mechatronics Engineering - In Progress | Federal University of Technology, Owerri (FUTO), Nigeria
