

BARNABAS MIKEL

Frontend-Focused Full-Stack Engineer

mrbarbx@gmail.com | GitHub | Portfolio | LinkedIn | Nigeria / Remote

PROFESSIONAL SUMMARY

Frontend-focused full-stack engineer with 3+ years of experience building responsive web applications and product interfaces using React, Vue, Next.js, TypeScript, and JavaScript. Strong in frontend architecture, reusable component systems, secured API integration, and polished user experiences, with working knowledge of Node.js, Express, AI-enabled workflows, debugging, and cloud deployment.

TECHNICAL SKILLS

Frontend: React, Vue 3, Next.js, TypeScript, JavaScript, Vite, Tailwind CSS, responsive UI, accessibility, component architecture

Backend & Data: Node.js, Express, REST APIs, FastAPI integration, serverless functions, Prisma, PostgreSQL, Supabase

AI & Automation: AI API integration, OpenRouter, multimodal interfaces, prompt engineering, workflow design, WhatsApp integrations

Engineering Tools: Git, GitHub, Vercel, npm, Postman, Figma, Cloudflare Turnstile

PROFESSIONAL EXPERIENCE

Frontend Engineer | Imisi Health | Apr 2026 - Present

- Build 42 responsive application screens for an internal healthcare platform using reusable components and consistent interface patterns.
- Integrate the frontend with secured Python/FastAPI APIs for authentication, profiles, assessments, appointments, patient records, insurance, AI assistance, document uploads, and administration.
- Implement authenticated frontend flows, API request handling, validation feedback, and complete loading and error states.
- Diagnosed and resolved cross-origin API request failures between the frontend and FastAPI backend, restoring communication across authenticated workflows.

Lead Frontend Developer & UI/UX Designer | Synlo, Nigeria | Nov 2025 - Feb 2026

- Led the design and frontend implementation of 21 responsive screens for a private SocialFi demo covering event discovery, matchmaking, authentication, animations, and state management.
- Translated early-stage product concepts into reusable interface components and coherent user journeys across the demo experience.

Frontend Developer (Part-time) | SIMM, France | Mar 2024 - Jun 2025

- Built responsive frontend screens and UI flows for AI-powered applications while collaborating with another developer.
- Connected frontend experiences to existing APIs, verified request and response behavior, and configured prompts and response presentation for AI-assisted interactions.

Frontend Developer | Learni | May 2023 - Jan 2025

- Collaborated with the lead frontend developer to implement responsive UI screens for a decentralized Web3 learning platform.

Freelance UI/UX & Frontend Developer | Zogo, Nigeria | Jun 2024 - Aug 2024

- Designed and implemented 13 responsive interface screens, translating product requirements into functional user flows and reusable UI components.

SELECTED PROJECTS

Subly | React 19, Vite, Tailwind CSS, Supabase, Cloudflare Turnstile

Built responsive marketplace, product, cart, checkout, authentication, and dashboard experiences for a digital access platform; integrated validated lead capture and bot protection. [GitHub](#)

VIN Multimodal AI Chat | JavaScript, Node.js, Express, Vercel

Built and deployed a multimodal AI chat experience supporting text, image, and file inputs, with Node.js/Express APIs and Vercel serverless workflows.

Omni-Channel AI Chatbot | Node.js, Express, Prisma, PostgreSQL, WhatsApp Cloud API

Developed a shared conversation backend for website and WhatsApp with lead capture, qualification, handoff flows, request validation, rate limiting, and webhook signature verification. [GitHub](#)

EDUCATION

Bachelor of Engineering (B.Eng.), Mechatronics Engineering - Expected 2027 | Federal University of Technology, Owerri (FUTO), Nigeria
